

TECHNICAL DATASHEET

Product

Name

Artwork Protection Sensor
for Sculpture

Product Code

AG-ASC-100

Colour

Black / White

Description

A low-profile, battery-free wireless security sensor designed for sculptures, vases, artefacts & valuable display objects. Positioned beneath the object, it detects lifting or unauthorised removal and transmits an alert to a compatible receiver. When paired with the Mini Alarm Hub, it can activate a local alarm and deliver real-time notifications through the Apeiron mobile app. Its non-invasive, self-powered design requires no wiring or battery replacement, making it ideal for galleries, museums, private collections and luxury residences.

Specifications

Power Supply:	Self-powered
Working Humidity:	≤99% RH
Working Temperature:	-20°C to 55°C
Storage Temperature:	-20°C to 55°C
Installation Method:	Place under Object
Dimension:	Ø150mm (support custom size)

Transmission Frequency:	433MHz RF
Transmission Range (Outdoor):	up to 80m
Transmission Range (Indoor):	up to 25m
Durability Test:	>100,000 cycles
Shell Material:	PC
Weight:	4.35g
